PROFESSIONAL SUMMARY

Results-driven Front End Developer with over two years of experience specializing in building dynamic and responsive web applications using React, Next.js, and Redux Toolkit. Proficient in HTML, CSS, and JavaScript (ES6+), with a strong track record of collaborating with design teams to create pixel-perfect user interfaces. Adept at working in Agile environments and delivering high-quality code.

SKILLS

- Frontend Development: React, Next.js, Redux Toolkit, TypeScript, Micro-frontend
- Web Technologies: HTML5, CSS3, JavaScript (ES6+), jQuery, WordPress
- CSS Frameworks: Tailwind CSS, styled-components
- Responsive UI Design
- Version Control: Git/GitHub - Web Performance Optimization
- Testing: Unit Testing with Jest and Enzyme
- RESTful APIs Integration - Node.js and Express.js (basic)
- GraphQL (basic)
- API Documentation (DocuSaurus).

PROFESSIONAL EXPERIENCE

GomyCode, Lagos Nigeria WEB DEVELOPER, (INSTRUCTOR - CONTRACT)

July 2023 – Present

- Conducted engaging and interactive classroom sessions, fostering a dynamic learning environment.
- Led coding labs and workshops where students applied theoretical knowledge to hands-on projects.
- Guided students through the creation of web pages, responsive designs, and interactive web elements.
- Offered constructive feedback and assistance to help students overcome coding challenges.
- Developed assessments and quizzes to evaluate student understanding and progress.
- Maintained accurate records of student performance and provided timely feedback on assignments and projects.
- Implemented continuous improvement measures based on student feedback and outcomes.
- Utilized a range of web development tools and technologies to facilitate effective teaching, including code editors, version control systems, and online collaboration platforms.
- Stayed up-to-date with the latest trends and practices in front-end web development to ensure course content relevance.

ImaliPay, Lagos Nigeria
FRONT END DEVELOPER, (Fintech Startup)

Feb 2023 – Present

- Spearheaded the development of consolidated dashboards, streamlining data visualization and analytics for clients.
- Utilized React.js to create dynamic, client-facing dashboards, providing real-time financial insights.
- Employed micro frontend architecture to ensure modular, maintainable code for scalable growth.
- Leveraged Tailwind CSS and Chakra UI to implement sleek and responsive user interfaces, maintaining a consistent and polished design language.
- Collaborated with the design team to translate Figma mockups into pixel-perfect UI components.
- Implemented TypeScript throughout the codebase to enhance type safety, code quality, and development efficiency.
- Developed reusable TypeScript components and interfaces, promoting consistency and maintainability.
- Designed and developed responsive dashboards and user interfaces to ensure an optimal user experience on various devices and screen sizes.
- Employed CSS media queries and responsive design principles to achieve cross-device compatibility.
- Integrated fintech APIs seamlessly into dashboards to provide real-time financial data and insights.
- Engineered a user-friendly interface for clients to access and interact with financial information.
- Authored comprehensive API documentation, utilizing DocuSaurus and Markdown, to guide developers and clients in effectively utilizing fintech services.
- Maintained clear and organized documentation, including code samples and usage examples.

Huawei Technologies, Lagos Nigeria
FRONT OFFICE ENGINEER

Jan 2022 – Feb 2023

- I monitored the performance, availability, and security of the organization's network infrastructure.
- used network monitoring tools to track network devices, servers, and applications, identifying and addressing any issues or anomalies that arise.
- received alerts or notifications, investigate the incidents, and take appropriate actions to resolve them. This may involve troubleshooting, performing diagnostics, and coordinating with other technical teams or vendors for issue resolution.
- investigated and resolved network and system-related problems. They use their technical expertise to identify root causes, troubleshoot issues, and implement solutions. In complex cases, they escalate problems to senior engineers or other teams for further investigation and resolution.
- maintained accurate documentation of incidents, resolutions, and standard operating procedures (SOPs). They create reports summarizing network performance, incident trends, and system vulnerabilities, providing valuable insights for management and other stakeholders.

[Rentaa.ng](https://rentaa.ng), **Remote**

July 2021 – Dec 2021

Front End Developer, React

A social lending marketplace that allows anyone to lend out and rent gadgets, devices, and equipment with optimal ease, convenience, and security.

- Developed and maintained interactive web applications using React.js, leveraging the latest features and best practices.
- Implemented and optimized React components for modularity, performance, and reusability.
- Created seamless user experiences by incorporating smooth transitions and animations.
- Utilized Tailwind CSS to efficiently design and style web interfaces, resulting in clean and maintainable code.
- Ensured consistent and visually appealing designs while adhering to UI/UX guidelines.
- Implemented TypeScript to enhance code quality, type safety, and developer productivity.
- Utilized TypeScript interfaces and types to define data structures and API responses.

Pertinence Group, Lagos Nigeria, onsite

June 2021 - November 2021

Front End Developer, React, WordPress

- Collaborated with the development team to build interactive and user-friendly web applications using React.
- Implemented and maintained React components, ensuring code modularity and reusability.
- Successfully integrated RESTful APIs into web applications to fetch and display dynamic content.
- Implemented data fetching, parsing, and rendering using JavaScript, Axios, or Fetch API.
- Demonstrated the ability to work with external data sources and handle asynchronous operations.
- Collaborated with designers to translate Figma or other design mockups into functional and pixel-perfect web interfaces.
- Ensured that the implemented designs closely matched the original design concepts.

Huawei Technologies, Lagos Nigeria

Jan 2019 –June 2019

Radio Frequency Engineer Intern

- Assisted in antenna selection, placement, and alignment to maximize signal coverage and minimize interference.
- Collaborated with senior engineers to optimize antenna configurations for specific deployment scenarios.
- Utilized RF propagation modeling software to predict signal behavior in different environments.
- Assisted in simulating and analyzing coverage areas, multipath effects, and link budget calculations.

Covenant University, Ota

2014-2020

Bachelor of Engineering, Information and Communication Engineering.
